

## **Dr. Sheila Nazarian is One of the First to Offer New Groundbreaking EmbraceRF Procedure**

*Beverly Hills California Physician Introduces Breakthrough EmbraceRF: One-Time Procedure, Local Anesthesia, Minimal Downtime, Permanent Results*

**[Beverly Hills, California, June 6 2018]** – Dr. Sheila Nazarian at Nazarian Plastic Surgery in Beverly Hills, California introduces EmbraceRF, a new facial contouring technique that addresses a treatment gap in current modalities offered to patients. EmbraceRF provides the innovation of the adipose-remodeling concept. Adipose-remodeling by EmbraceRF generates heat to strategically and artistically contour the fat and skin of the lower face, with consistency and safety. EmbraceRF targets the neck and face through a powerful combination of InMode’s proprietary technologies: FaceTite and Morpheus8.

The EmbraceRF now provides physicians and patients with the possibility to achieve real impressive surgical-like results in a relatively short procedure under local anesthesia, in the office. EmbraceRF is one more breakthrough minimally invasive procedure in the tradition of InMode’s benchmark radio-frequency technology. This is a new, one-time procedure, with minimal downtime, and impressive results. Learn more about InMode technologies by visiting [www.inmodemd.com](http://www.inmodemd.com).

“We have seen many generations of women in our practice. What excites us about EmbraceRF is the ability to treat multiple age ranges and provide each woman with an individual approach to suit their specific needs,” says Dr. Nazarian.

Nazarian Plastic Surgery is located at 120 S. Spalding Dr. Suite #315, Beverly Hills, CA 90212. For more information, please call 310-659-0500 or visit [www.nazarianplasticsurgery.com](http://www.nazarianplasticsurgery.com)

### **About Dr. Sheila Nazarian and Nazarian Plastic Surgery:**

Dr. Sheila Nazarian, founder of Nazarian Plastic Surgery, is a board-certified, Beverly Hills plastic surgeon. Her top-notch education, experience, commitment and dedication in the field of plastic surgery and to her patients have earned her an unparalleled reputation. Between her general surgery and plastic surgery experience, she served as the Division of Plastic and Reconstructive Surgery’s Clinical Research Fellow for two years, where she published multiple journal articles and presented at national meetings. Dr. Nazarian understands that appearance and self-confidence interplay. Her meticulous eye for detail reflects the artistry that distinguishes Dr. Nazarian’s work as a plastic surgeon, and her commitment to achieving natural-looking outcomes that blend well with the patient’s overall facial or body proportions. In addition to her thriving practice, Dr. Nazarian is also a mentor/assistant professor at USC, founder of the skincare destination TheSkinSpot.com, as well as a social media influencer.
